The Putnam/Northern Westchester Women's Resource Center is a non-profit organization established to provide advocacy, education, and services to the community in order to create a safe, supportive environment that eliminates violence against women and children, and promotes gender equality.

Our center realizes the key to eradicating domestic and sexual violence is through knowledge and education. We believe it is not enough to help women, men, and children after they have been abused; we must work toward preventing abuse in the first place.

**Peace in the World Begins with
Peace in the Home**

Community Education Program

Our Community Education Program is committed to providing the community with information and resources about domestic and sexual violence. To accomplish this goal, the Putnam/Northern Westchester Women's Resource Center has two full-time community educators, who are able to create presentations, attend conferences, and sit on informational panels.

Our community educators are able to collaborate by creating and providing unique trainings, workshops, and presentations to a variety of organizations and local schools. These presentations and workshops can be developed to satisfy the needs of the school or organization while covering a wide range of topics that are appropriate for the target audience.

How We Can Serve the Schools
